Our Identity

Ornes Gıda: Nurturing Nature, Nourishing Lives

Born out of a deep-rooted passion for organic living and a profound commitment to bridging the gap between conscientious producers and discerning consumers, our journey began with a simple yet powerful mission.

In 2012 we planted the seeds of Ornes Gıda that would soon sprout into a thriving venture.

Bringing Together the Best

In a landscape where small and medium-sized producers often faced challenges in reaching the end consumer, Ornes Gıda emerged as a unifying force. The founder, inspired by the richness of Turkey's agricultural heritage, envisioned a platform that would not only empower local producers but also provide consumers access to the finest organic and natural products.

A Journey of Growth and Satisfaction:

From our humble beginnings, Ornes Gıda embarked on an annual quest to elevate the satisfaction levels of both our consumers and suppliers. Each year brought new milestones, new partnerships, and an unwavering commitment to excellence. Our dedication to fostering a sustainable ecosystem for both producers and consumers became the guiding force propelling us forward.

From the golden richness of our olive oil to the purity of our honey, every product in our diverse portfolio is a testament to our belief that healthy eating is the cornerstone of a vibrant and fulfilling lifestyle.

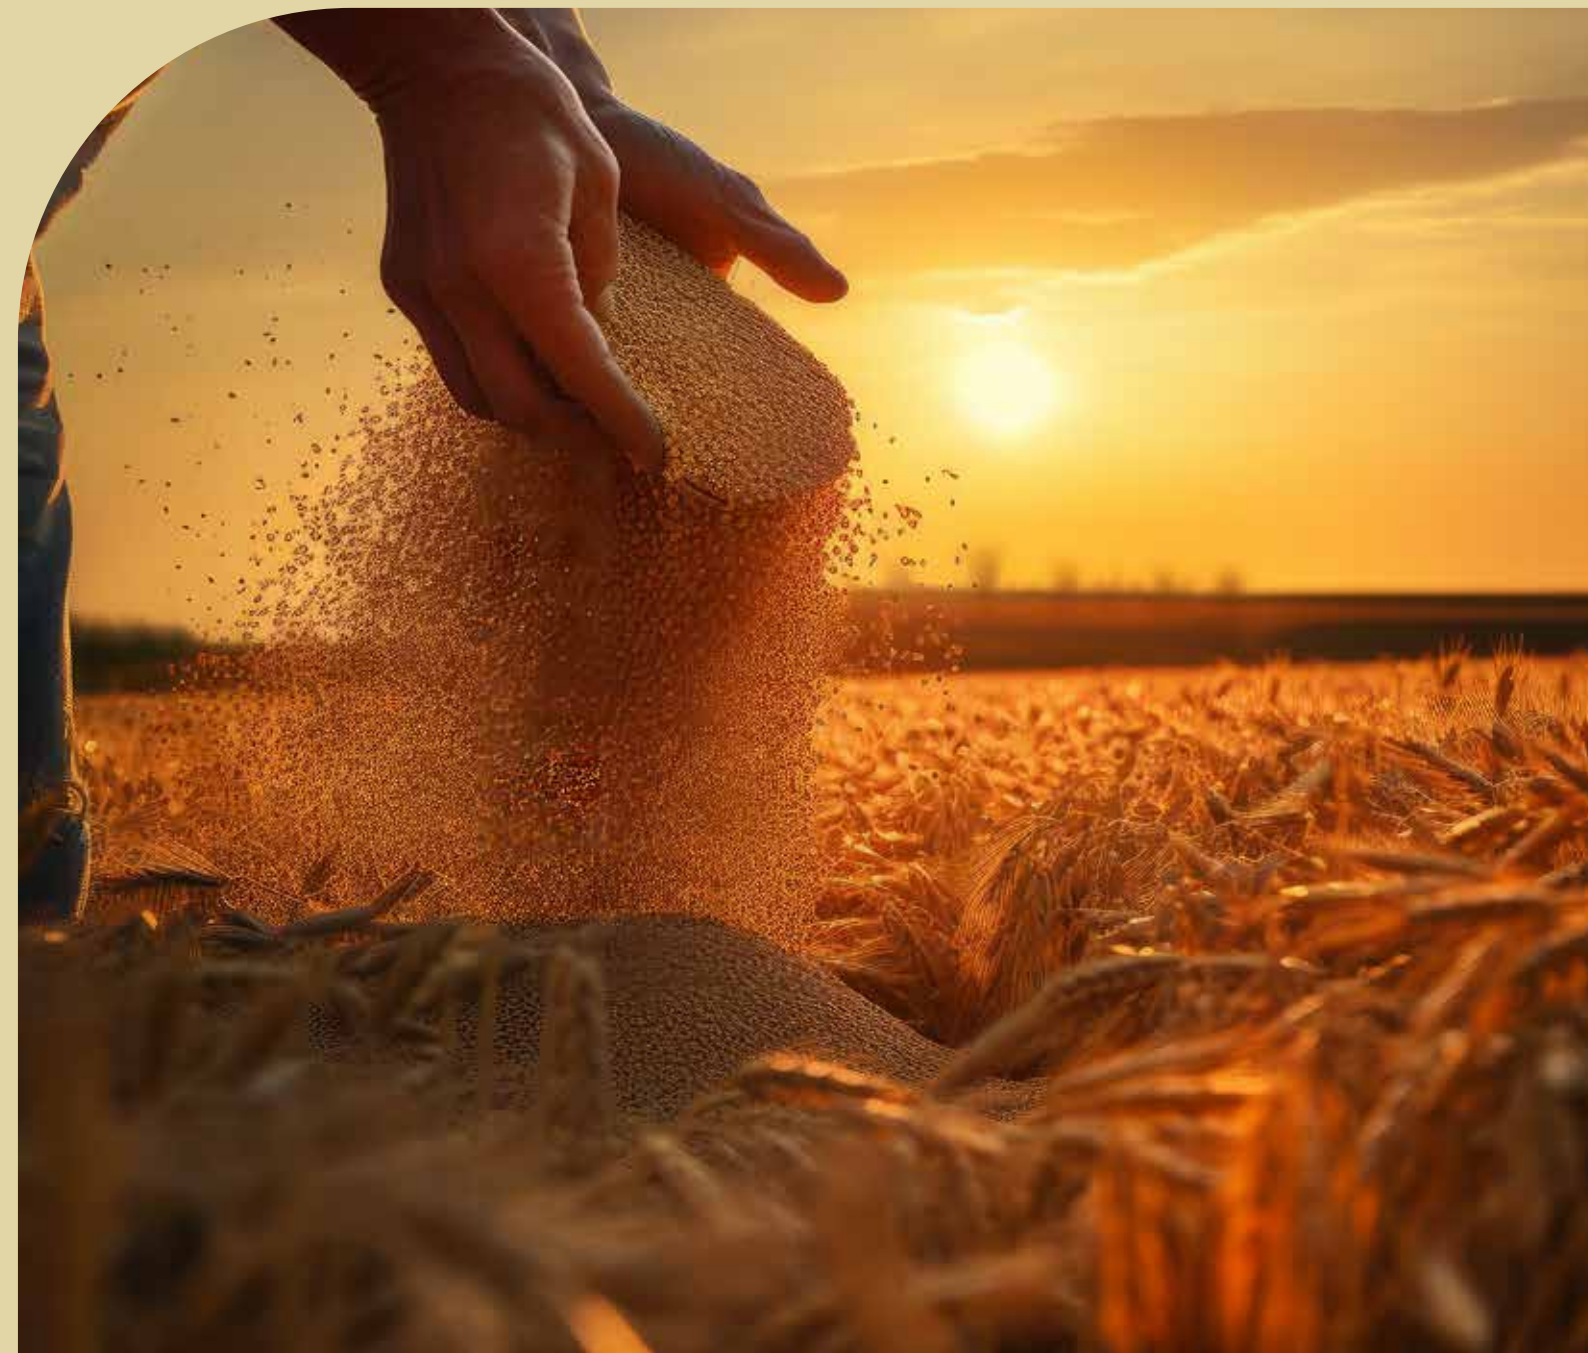

From Farm to Table, Every Step with Care

As Ornes Gıda flourished, so did our commitment to sustainability. We expanded our reach as we do not only source from reliable producers but we cultivate our own products as well. Our farms, nestled in the embrace of nature, yield everything from eggs and dairy products to olives, legumes, tea and flour. Even our animals feed on raw materials, such as corn, wheat, and barley, which are grown with the same care that defines our organic ethos.

Ornes Gıda is committed to ethical sourcing and sustainable farming practices. We work closely with farmers who share our values, ensuring that our products are not only healthy and organic but also produced with the utmost respect for the environment. With us, you can savor the goodness of organic foods while contributing to a more sustainable future.
